RG104 E-1 Box 136 Oct-Dec 1885

The Mint of the United States at Philadelphia, Pa.,

MELTER AND REFINER'S DEPARTMENT,

10th October, 1885.

Sir,

As we are nearly out of the fused borax, and as it will require some time to prepare it for our use in melting, I would prefer giving out the order for it early, the more so, as I know of the expansion of the Works of Savage & Stovell, and that the preparation of the fused borax might be interfered with thereby and deferred.

Very Respectfully

Hon. D. M. Fox
Superintendent

I. A. C. Booth
M. & R.
